Horizon® 2 faceplates ([HZ2-FP-G](#) series) are essential installation components of every Horizon 2 installation to provide a finished appearance with customizable design elements. Each faceplate features side panels that match the keypad's textured button faces to provide a clean, contiguous surface from edge to edge.

Multigang Expansion with Horizon 2 Faceplates

Install up to four Horizon® 2 devices side-by-side in a US multigang electrical box with a compatible [HZ2-FP-G](#) series faceplate. When multiple devices are installed in a 2-, 3-, or 4-gang faceplate, the buttons on the devices are aligned to form one continuous control surface.

Horizon 2 Faceplates Supporting Decorator-Style Devices

Decorator-style faceplates (FP-G-D series) accommodate a wide variety of Decorator-style third party devices alongside Horizon 2 devices. They are offered in white, black, and almond in a variety of configurations. Nonsymmetrical faceplates can be reversed to support the decorator-style device on either side of the Horizon 2 device(s).

NOTE: Crestron recommends using Schneider Square D X Series wiring devices for the best match to Horizon 2 colors and textures.
