

HR-310-BTN ENGRAVED

Backlit Engravable Buttons for HR-310 & HR-310-I, Includes Custom Engraving

HR-310-BTN ENGRAVED provides a complete set of nine backlit buttons and a bezel with custom laser-etched engraving for an [HR-310](#) or [HR-310-I](#) handheld remote. These replace the nine assignable buttons and the bezel at the top of the remote. The buttons come configured together in a fixed 3x3 array and cannot be rearranged or replaced individually. All nine buttons must be specified and ordered as they will be laid out on the remote.

The upper portion of the bezel may also be engraved, allowing the remote to be labeled with a room name or other designation. Specifying engraving is easy using Crestron Engraver software. A button removal tool is included to assist in removing the old buttons and the bezel from the remote.

NOTE: Engraving on the bezel is not backlit. Only the button engraving is backlit. Any button may be left blank. To obtain a complete set of nine blank buttons and bezel without engraving, see model [HR-310-BTN BLANK](#).
