Retrofit Mounting Brackets for TSW-750, TSW-752, TSW-1050, & TSW-1052

Replacing an existing wall-mounted Crestron® touch screen with a new [TSW-750](#), [TSW-752](#), [TSW-1050](#), or [TSW-1052](#) touch screen is simplified using a TSW-RMB Retrofit Mounting Bracket. A complete set of brackets is available to streamline the process without having to tear up or patch the wall surface. The TSW-RMB simply mounts over the existing back box, mounting kit, or cut-out to accommodate the new touch screen.

TSW-RMB brackets are composed of metal and coated with a white, paintable surface treatment. Note that when mounting a TSW-750 or TSW-752 using a TSW-RMB bracket, the top and bottom edges of the bracket will be slightly visible.

Choose the appropriate retrofit mounting bracket for your application using the table below:
