## **ANT-EXT**

# **Antenna Extenders**

Crestron® ANT-EXT Antenna Extenders are designed for use with many Crestron RF gateways, allowing the device to be installed in an equipment rack or similar enclosure while the antenna gets mounted outside the enclosure. It can also be used to enable placement of the device on a low shelf while allowing the antenna to be positioned at a higher elevation for optimal coverage.

The ANT-EXT is offered in a 10 ft (3 m) length. It features a magnetic weighted base with attached extension cable. The base can be placed on the top of a rack or cabinet, or on a shelf. Its strong magnet also allows it to be affixed to a vertical metallic surface such as the side of an equipment rack. Simply attach the antenna, which normally ships with the gateway, to the ANT-EXT base and position it for proper operation.

## **SPECIFICATIONS**

### Cable Length

ANT-EXT-10: 10 feet (3 meters)

#### **Base Dimensions**

Height: 1.75 in (45 mm) without antenna

Diameter: 1.58 in 41 mm)

### Weight

3 oz (85 g)

## Available Models

ANT-EXT-10: 10 ft Antenna Extender
